EXPERIENCE

Front-End Software Engineer All-American Healthcare Services

05/2021 - Present

Remote

AAHCS is the leading healthcare staffing agency in the US, leveraging technology and personalized service to fill job openings for nursing professionals.

Achievements/Tasks

- Utilize JavaScript, React, Material UI and other modern tools to build out the user interfaces and experiences used within the AAHCS AllShifts app
- Actively contributed within meetings regarding sprint planning, UI/UX brainstorm and technical updates to improve team processes and workflow

Front-End Software Engineer Brandcoders

08/2020 - 05/2021

Orlando, FL

Brandcoders is a web development, marketing, & digital branding agency specializing in creating brand identity, powerful websites, & custom web apps.

Achievements/Tasks

- Core-contributor for building an extensive reusable React component library used across all custom web applications, making the front-end development process more efficient
- Helped develop and participated in the full SDLC of multiple custom web applications, including dynamic and interactive dashboard applications
- Leveraged the use of modern technologies & applications, such as TypeScript, Reactjs, Next.js, React-Query, Rest APIs, HTML5, and CSS3 to create optimal front-end experiences

Software Developer Banyan Air Service

04/2018 - 08/2020

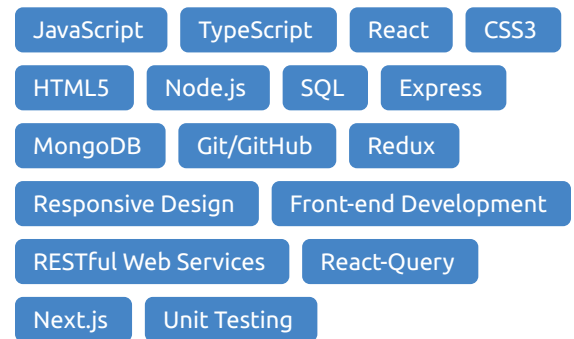

Fort Lauderdale, FL

Banyan Air is a full-service fixed base operation located at the Fort Lauderdale Executive Airport serving aircraft owners since 1979.

Achievements/Tasks

- Implement JavaScript, Node.js, HTML and CSS to modernize and transform existing RPG green-screen applications into web applications
- Developed the company's first mobile application via the Profound UI Mobile Client, allowing technicians to access data stored on the IBM i server, including the use of image upload and barcode scanning
- Constructed the overall UI design of an MRO Dashboard software used extensively by the maintenance department
- Created and designed custom widgets via the Profound Logic API & framework which allowed IT team to build the UI of applications with ease
